#### DETAILED STATEMENT OF CHURCH COLLECTIONS.

REFERRED TO IN THE PRECEDING EXHIBIT AS HAVING BEEN SENT DIRECT TO INSTITUTIONS.

Note.—To the collections named in this statement the same recognition is given as though they were passed through the Board's treasury. These amounts could not be set forth by the Treasurer as a part of his receipts, but the *churches* named below have also been named, in italies, in their proper alphabetical places, by synods and presbyteries, in the Treasurer's exhibit of coöperating churches. (See corresponding note on page 32.)

#### CONSTITUTIONAL PROVISIONS.

The following are the chief provisions under which this Board has been constituted, as determined by the act of the General Assembly of the Presbyterian Church in the United States of America, in session at Saratoga, N. Y., May, 1883:

The name of this Board shall be the Presbyterian Board of Aid for Colleges and Academies, and the general work shall have the limitations indicated by its title.

The Board shall consist of twenty-four members, divided into three classes, composed equally of ministers and laymen, and one class shall be elected each year.

The province of the Board shall be to secure an annual offering from the churches for this cause; to coöperate with local agencies in determining sites for new institutions; to decide what institutions shall be aided; to assign to those institutions seeking endowment the special fields open to their appeals, that clashing between them may be avoided; and to discourage all independent appeals to the Church at large.

The funds received by the Board shall be devoted either to current expenses of struggling institutions, or to permanent endowments.

The funds shall be secured (a) by annual offerings from the churches, mainly for current expenses of the institutions; (b) by special applications for endowment under the approval and general direction of the Board.

Every institution hereafter established, as a condition of receiving aid, either shall be organically connected with the Presbyterian Church in the United States of America, or shall, by charter provision, perpetually have two-thirds of its Board of Control members of the Presbyterian Church.

In the case of institutions already established, and not included under the above provisions, appropriations for endowment shall be so made as to revert to the Board whenever these institutions shall pass from Presbyterian control.

In all other respects the disbursement of funds by the Board shall be wholly discretionary with the Board, both as to amount and direction, subject always to the control of the General Assembly.

#### BY-LAWS.

The following are the more important by-laws adopted by the Board for its guidance.

It shall be the duty of the Permanent Secretary to have charge of the general work of the Board, subject always to the direction of the Board or its Executive Committee. He shall conduct the correspondence; visit the churches, presbyteries and synods; inform himself as to proposed college sites, and the character and prospects of institutions applying for aid; send out all notices; prepare an annual report to be submitted to the General Assembly; and in every way, as the chief executive agent of the Board, seek to promote the interests committed to it.

The Board shall hold three stated meetings each year as follows: On the Tnesday after the second Sunday of June and November respectively, and on the third Tuesday preceding the opening of the General Assembly. It shall also meet on the call of the President, or in his absence, of any member of the Executive Committee, when that call is authorized by the written request of any five members of the Board, duly signed and submitted. Seven members shall constitute a quorum.

The Board shall elect an Executive Committee consisting of seven members, the President and Vice President being ex-officio members of this Committee. It shall be the duty of this Committee to supervise the work of the Board, to act as its executive on all matters committed to it by the Board, to forward the business of the Board by all proper arrangement of its details, and to report to the Board from time to time what may be deemed desirable or needful action; and in the interval between the meetings of the Board, to take all needful original action not involving the appropriation of funds.

No appropriation for aid shall be entertained without the endorsement of the presbytery in the case of an academy, or of the synod in the case of a college or university, unless sixteen members of the Board be present, and the vote to consider the application be unanimous.

#### GENERAL INFORMATION.

#### INCOME SOLICITED.

This Board solicits two classes of gifts:

I. Gifts to its general treasury, out of which it makes annual appropriations to the current expenses of those institutions which it finds to be entitled to such assistance. It is only for this general treasury, and for its current aid of the teaching work, that the collections of the churches are asked. Personal gifts to the same treasury are also solicited.

#### PASTORS AND SESSIONS OF CONTRIBUTING CHURCHES

Which have not arranged another time for taking their collections, are requested to take them in February, as was recommended by the General Assembly of 1884; and also to accept the offer which, about January 1, is made of a brief document (of which a specimen is then forwarded to every pastor) for informing the congregation concerning this work.

II. Gifts for the increase of school property or endowment. Such gifts are asked of individuals only, and the Board will not acknowledge as a contribution to its work any church collection that shall be diverted from the Board's general treasury and applied to clearing a debt or increasing the property or endowment, even of one of its own institutions.

#### SOLICITATION OF PERSONAL GIFTS.

In the matter of soliciting individuals for their gifts to the property of institutions, the Board has made material change of its first methods. Its latest commission of any canvasser ended with the year 1887. The policy which it has since pursued and which is more and more approved by its ex-

perience, is, in substance, this: It is understood that any presbytery having care of a needy academy, or any synod having care of a needy college, is the proper judge of the form and measure of personal canvass to be made within its own bounds by its own dependent institution. Within such limits, accordingly, the Board applies no policy of its own. But when an academy or college seeks property gifts from beyond the limits of its presbytery or synod, the method of supply that is held to be on every account the best, is for the Church's Board to be informed of the institution's need, and to meet it, either out of a general fund with which it shall be entrusted for that purpose, or out of such particular gifts as it can secure by its own correspondence or publications, or by the personal representations of its own officers. The certainty of safe giving which is thus assured to the givers, the saving of their time and patience, and the saving of the very large percentage of canvassers' commissions and expenses, are advantages so manifest that they hardly need to be named. Added to these, the Board's special rule of securing by lien all the property gifts of which it is made the channel sets its method far above comparison with the forms of independent solicitation and venturesome giving to which liberal people have been accustomed. This method cannot prevent any officer or friend of a needy institution from presenting its ease and claims among his personal friends (though even in such case the giver should make a Board lien the condition of his gift.) But the Board discourages any act of solicitation by any canvasser who prosecutes his work by introductions, however secured. No such canvasser acts by its authority. Its whole influence is thrown on the side of that other sort of giving from which has grown the notable increase that is now making in the property of its institutions—the giving by liberal individuals to the Board itself, as the adviser, distributor and guardian of their benefactions. This explanation is made at such great length for the purpose not only of forestalling applications from institutions to the Board for such "fields for canvass" as it formerly assigned, but also of soliciting the direct and generous co-operation of those who approve the Board's reasonable, secure and economical method. Will these latter kindly consider that the Board can distribute only what it receives; that its present bestowments are rapidly consuming its present material, and that such a central fund as is here described can never be maintained without a good degree of spontaneity in those who make it up? The only weak point in our scheme lies in that common inconsistency by which even conscientions and thoughtful givers wait for the very form of irresponsible personal persuasion to which they object; and when it comes, yield to it in spite of their objections. We bespeak an increase in the number of men and women who wishing to build up, at the West, Presbyterian institutions of higher learning, themselves direct their means toward this Board, to be distributed under its advice; and so are prepared to notify any canvasser that his case is to be made out to the Board, which has the means of sifting his claims and of securing what it gives.

#### LEGACIES.

The Board believes that its cautions methods and demonstrated results, the assured permanence of the institutions which it is rapidly establishing and the incalculable reach of their future influence in the nation and the world, will appeal more and more to the thoughtful makers of wills. Information will be given in regard to any feature of its general work, or concerning the financial condition, the prospects and needs of any one of the institutions under its care. It is incorporated under the laws of the State of Illinois by the title, "The Presbyterian Board of Aid for Colleges and Academies."

#### APPLICANTS AND MODE OF APPLICATION.

Aid cannot be given to institutions, however excellent, that are owned by individuals or by stockholders. They may be owned and controlled by an ecclesiastical body belonging to our denomination, such as a synod or presbytery; or the ownership and control may be vested in a board of trustees elected or nominated from year to year by such ecclesiastical body; or such board of trustees may both nominate and elect their own successors, provided there be a stipulation in the charter or articles of incorporation that two-thirds of the trustees shall always be members of the Presbyterian Church in the United States of America.

Attention is asked to that "constitutional provision" above recited by which it is made a part of the province of the Board "to co-operate with local agencies in determining sites for new institutions." In advance of the fixing of any site upon which Church aid is expected, whether for the production of property or the maintenance of work, the movers in the attempt should have the clearest understanding with the local presbytery or synod on the one hand, and with the Church's Board on the other.

Under the policy approved by the General Assembly of 1890, the Board is intent upon excluding debt of all kinds from the whole career of every institution which it shall take upon its list. Accordingly it will aid in proportion to its ability and the demands of the case, in producing an adequate property in which a new institution may begin its teaching work; but it will not give current help to any work that is begun before such adequate property, including building as well as grounds, is distinctly provided for. Communities that contemplate the establishment of their academy or college are hereby guarded against the belief that their local provision of grounds, however admirable, coupled with a small proportion of the requisite building-fund, can be supplemented with necessary means from the Church through the Board. The scope of territory for which the Board has to care is so vast, and it is so common for owners of land to offer desirable plots together with considerable bonuses of cash, that to close with the offers so made, even of the best sites, would require outlay immensely beyond the Board's ability. It is only after a community has itself arranged both for a desirable site to be had without encumbrance, and for the main part of the cost of the building in which the teaching work is to be begun, that the Board can be expected to make any investment either in the property or the teaching work. Its best advice, however, it will gladly give at any stage of the undertaking.

It is farther to be understood that an institution having aid from the Board as an academy forfeits all presumption that aid will be continued if it changes its grade to that of a college without the full understanding and previous consent of both its synod and the Board.

#### APPLICATION FOR CURRENT AID

Is to be made by the trustees in formal meeting by filling out a form which the Secretary will furnish upon request; and it is to have approval of the proper synod or presbytery, as the Board's by-law requires. The annual meeting for voting upon these applications is held on the Tuesday after the second Sunday in June. The appropriations so voted will at once be made known to the several boards of trustees, in order that their outlay for the next scholastic year may be adjusted to the foreseen income of the year as supplemented by the Board's voted aid. The vote accordingly will be made for a definite sum which the Board will hold itself obliged to pay, but only upon the condition (which has the full approval of the General Assembly) that the cost of the year's work shall be actually balanced by the year's income. In effecting such balance every academy will be allowed to receive, over and above the Board's voted aid, the "Board of Aid collections" for that year of the churches of its presbytery, and every college those of the churches of its synod, provided, in each case, that the contributing church shall have declared its choice for such application of its collection.

No institution having pledge of the Board's aid shall be at liberty, without the Board's concurrence in writing, to create debt of any kind beyond its own then visible and certain means of payment; and departure from this understanding will release the Board from its pledge. But it will be the Board's duty to assist, according to its ability, in such outlay for any institution as it judges to be necessary and as cannot otherwise be met.

In order to a proper distribution of its expected income, it is necessary that the Board have all applications for the ensuing scholastic year put before it at its June meeting; and since the information furnished by the applications requires consideration by the Executive Committee in advance of Board action, it is for the advantage of all concerned that the entire set of facts be presented for study at least a fortnight before the day of meeting. Institutions that withhold their applications beyond that time, and meanwhile furnish no satisfactory explanation of their delay, will be considered to expect no aid from the Board for the year then begun. Indeed, the nature of the application allows it to be prepared and forwarded many weeks in advance of the meeting of the Board, and inasmuch as the information which it gives often calls for explanatory correspondence, such early sending is very desirable.

APPLICATIONS FOR AID IN THE PRODUCTION OR INCREASE OF PROPERTY

Or in the removal of existing debt, should be made in writing and be so explicit as to lay before the Board all the substantial facts of the case; should be certified as adopted by the applying trustees by formal vote in a meeting regularly called, and should have formal approval of presbytery or synod, as in the case of application for current aid.

#### ACTION OF THE GENERAL ASSEMBLY

AT SARATOGA, N. Y., MAY, 1890.

The seventh annual report of the Board of Aid for Colleges and Academies was, by the General Assembly, referred to the following Standing Committee:

Ministers — John Hemphill, D.D., Francis Brown, D.D., J. P. E. Kumler, D.D., Thomas X. Orr, D.D., Francis S. Blayney, Robert F. McLaren, David B. Duncan, Howard Billman. Elders — Henry V. Freeman, Peter D. Hamilton, Judson E. Carpenter, James Browne, Squire L. Vanpelt, William D. Dobson, James M. Harris.

This committee presented by its chairman, Rev. John Hemphill, D.D., the following report, which was unanimously adopted:

Your Standing Committee on the Board of Aid for Colleges and Academies respectfully reports:

That this, the youngest-born of our Boards, is a remarkable child for its years. It has been healthy and vigorous from the hour of its birth. It is healthy and vigorous still. It is no longer in swaddling-clothes. It has "fulfilled its week" of years, and appears before you to-day with the "promise and potency," of a still more healthy and vigorous life in the years to come. It has come, and it has come to stay. It is no longer an experiment - it is a fact. That such an agency is needed to superintend and push forward the work of higher Christian education in this land is too evident to admit of argument. The wonder is that such an educational agency did not appear in such a Church as ours long before. The mighty tide of population is flowing westward in irresistible currents, and some of us shall live see a vaster empire west of the Mississippi than east of it. Professor Fiske, a cautious and conservative thinker, estimates that a hundred years hence the United States will contain a population of not less than six hundred millions. This may be exaggeration, or it may not. The undisputed fact remains, that our population is increasing very fast.

All missionary work is important at all times; but there are times when special forms of missionary work call for immediate action. The Board of Aid is doing such missionary work, and the time to push that work is now. Grants of land for school and college sites are now offered to us, which will not be available later on. And as the population we have is now shaped under the redeeming and uplifting influences of the Gospel by means of school, and academy, and college, and toiling missionary, so shall be the larger population of the years to come.

Your Committee have read attentively and considered carefully the able and elaborate report of the Board submitted to this Assembly. We con-

gratulate the Assembly and the Board on the work accomplished by it. Some of us said sadly when this Board was created: "Another Board for an annual collection." But it has already more than proved its right to an annual collection, and, therefore, its right to be. We call the attention of the Assembly to the following facts stated in the report:

The number of contributing churches has risen steadily from year to year. In its first year it had 480 contributing churches; in its second, 1,330; in its third, 1,529; in its fourth, 1,761; in its fifth, 1,865; in its sixth, 1,902; in its seventh, 2,030; and the increase of its receipts has kept step with the increase of contributing churches. In its first year it received less than \$15,000; this year more than \$84,000.

This is the bright side of the picture. Look at the other side. Of the \$84,000 received by the Board, only \$32,000 came from the churches, the rest being gifts of individual donors and legacies; and of the 6,800 churches on the roll of the Assembly, only 2,030 contributed to this Board. We have inquired diligently into the causes of this lack of loyalty on the part of more than two-thirds of our churches to the recommendations of Assembly after Assembly, which call upon every church to take up a yearly collection for this Board; and we are persuaded that the neglect arises, partly from misconception and partly from carelessness on the part of pastors and church sessions. Many churches take annual collections for this Board, and then pay the same, not into its treasury, but into the treasury of some local institution of learning, very needy and highly deserving, but not under the Board's care, thinking that thereby they have fulfilled their obligations to the Board and the Assembly. Hence it is that so many churches reported as contributing to "Aid for Colleges" in the minutes of the Assembly, appear as non-contributors in the report of the Board. This is not right. Every collection for this Board ought to be paid promptly into the treasury of the same. We trust that the members of this Assembly will return to their presbyteries with this Board as a special burden upon their hearts, and do what they can to bring light concerning this Board, where now there is dense darkness, that so the non-contributing churches may come up to the full measure of Gospel requirement in respect to this important arm of our denominational life and work.

There are so many things worthy of special commendation and emphasis in the policy of the Board, that we hardly know where to begin, or which to commend the most. In its wise caution in withholding aid from institutions whose prospects of permanence are not hopeful; in its settled purpose to help only those which manifest a disposition to help themselves; in its discouragement of the multiplication of useless schools and colleges; in its unswerving loyalty to its original determination to keep out of debt, never having "carried a dollar of deficit to a new year," in its reduction of old debts and its prevention of new ones—in all these things and many more, the policy and work of the Board are worthy of all praise. Your Committee desires to call special attention to the Board's policy of preventing new debts. Such debts for current expenses were being created from year to year in many of the aided institutions. For example, the balance-sheets of the aided institutions for 1888–9 showed that the outgoes for current expenses

had exceeded the income by about \$30,000. This was putting money into a "bag with holes." The evil must be arrested; and it has been by an arrangement made for the emergency between trustees, teachers and the Board. It has been so successful as to secure for every institution the important result of balanced books, and at the same time greatly to increase the teachers' income for the year. For the future the Board's arrangement for the prevention of this great evil is made by stipulation between itself and the several boards of trustees.

Your committee have carefully examined the minutes of the Board, and find them correctly kept; and recommend their approval.

In view of the foregoing facts we recommend the adoption of the following resolutions:

- 1. That the Assembly recognizes with gratitude the manifold blessings of God upon the work of this Board in the seven years of its history, and earnestly prays that these blessings may be multiplied in the years to come.
- 2. That we heartily appreciate the fidelity, zeal, and business-like sagacity with which the Board has carried forward the work committed to its care.
- 3. That its seventh annual report shows it to have reached such a stage both of results and of efficiency as warrants a great and immediate increase of its resources.
- 4. That its success in removing all debt from many of its most valuable school properties, its good prospect of rapidly reducing what debt remains, and its twofold policy of preventing future debt and of securing all property gifts by lien, deserve the attention and co-operation of all who wish to make safe investments in behalf of Christian education.
- 5. That as rapidly as any college or academy is cleared of debt, the Board is advised to state in the "Church" magazine and in its annual report the nature and the value of the property so cleared; and that individual givers are hereby urged to arrange with the Board for so endowing such schools by secured investments that they shall be established in their work, and relieve the Board from yearly contributing to their support.
- 6. That, in order to encourage the work of endowment by personal gifts, it is of the first importance that the churches, by their annual collections, make adequate provision for the Board's supply of current aid to unendowed institutions; and that for the year now begun the churches are urged to raise their joint contributions for this purpose to the sum of \$60,000, and to hold all collections taken in the Board's name sacred to its distinctive work, as administered by itself.
- 7. That the following persons be, and hereby are, elected members of the Board, to serve three years, namely: Ministers—Rev. S. J. Niccolls, D.D., Rev. J. H. Worcester, Jr., D.D., Rev. Robert Christic, D.D., Rev. H. D. Jenkins, D.D.; Laymen—W. O. Hughart, Henry W. Johnson, Dexter A. Knowlton, John C. Grant: and that Rev. Thomas C. Hall be elected to fill the unexpired term of Rev. John F. Kendall, D.D., deceased.

All of which is respectfully submitted.

JOHN HEMPHILL, Chairman.

#### REPORT OF THE

# GENERAL ASSEMBLY'S SPECIAL COMMITTEE

-OF THE-

# PRESBYTERIAN CHURCH,

-on-

# SYSTEMATIC BENEFICENCE.

1890.

The Assembly's Committee on Systematic Beneficence respectfully presents its Eleventh Annual Report, traversing the first year of a new decade in this work. We are thankful that our numbers are intact, that no record need be made, as so sadly in these recent years, of members removed by death. In the important duties relegated to us by the Assembly, of informing and stimulating the Church in regard to best principles, and wisest methods of benevolent giving, we have found the usual difficulties, which experience has led us to expect, in altering old habits of life and thought throughout New measures require time to demonstrate their the Church. superiority, before they supplant the old. Innovations that call for thought, work and sacrifice, are not apt to be swiftly popular. our previous effort has been evidently fruit bearing, in the wider information and interest of our ministry, officers and people. that a large part of the available time and strength of your Committee has been spent in coaching the early efforts of Sessions and Churches that resolve to run upon the new lines of effort opened to them by advice of the Assembly, at your Committee's instance. Modes and principles that have behind them the word of God and the verdict of experience, will not long suffer rejection in a church like ours. The reward of your Committee has been always in hand, through the kindly, sometimes enthusiastic welcome with which our efforts have been greeted in all parts of the church. A new era of Christian giving has unquestionably begun in the Presbyterian church. If our feeling of the public pulse is at all to be trusted, the popular heart is beating with a healthier movement towards those Scriptural reforms in giving, for Christ's sake, to which our denomination is now distinctly committed, before God and the world. A true beginning has been made. We may be content to build slowly, if we only build firmly.

A few years ago, the immense practical truth that God was to be worshiped by the offerings of his people, was only here and there accepted, with a few sporadic applications to practice.

Systematic giving was making some advance under special appeals from straitened Boards. The proportionate consecration of every Christian's income, as God has prospered him, was seen by some eyes to be Biblical, yet slenderly accepted in practice, and never vigorously enjoined by the church, in practical modes of operation. Now, all three of these grand basic foundations of Christian beneficence are established in our Constitution, by deliberate action of the Presbyteries. In recent Assemblies, and by action of our lesser judicatories, in large majority, these principles are now continually reaffirmed. What the mind of the church has received and what its convictions have accepted, its heart must adopt with enthusiasm and its hands carry out with practical zeal, in fealty to Christ, before these great truths of principle and policy can be anything among us, but a breath upon the air.

The new Chapter VI, in our Directory for Worship, is constantly aiding us, as we anticipated, in the efforts we have had in hand. The varied advantages and the flexible adaptation of the system of weekly worshipful giving, there commended, are pressing it upon the churches' mind with frequent successful adoption. Yet, in some Presbyteries, not a single church has turned into line as yet. Presbyterial Committeemen on Beneficence, as well as conservative Pastors and Sessions, need stirring in such cases to examine with more intelligent sympathy, and to endorse with keener zeal, such Scriptural methods, whose pronounced success is sure to follow their hearty adoption, and which, loyalty to our church will never allow to be condemned, unheard or untried.

The latest efforts and most careful studies of your Committee for the past year have been expended upon the problem of Proportionate Giving, as the best individual rule of Christian giving and of financial policy for the church. Our reports have for years indicated our conviction, which is in no wise weakened by lapse of time, or watchfulness of observation—that the great benevolent advances of our church in time to come, must largely run along that line. The resolutions of many Synods and Presbyteries, as such action has been communicated to us, show that this conviction is creeping into the thought of the church at all points. Very few Synodical or Presbyterial resolutions on the subject of Beneficence have come to our notice, where the matter of Proportionate giving, as the rule for Christian life, is not prominently set forth, and none where it is in any way antagonized. Many important judicial bodies have laid great stress upon the importance of pushing this endeavor to the utmost.

We quote from the last Minutes of the Synod of Indiana, as representative of this feeling:

"The O. T. by its system of tithes, and the N. T. by its injunctions to give as God gives, and to lay by in store on the first day of the week as God has prospered each one, present proportionate, systematic, thoughtful giving as the only Scriptural standard. There can be no doubt that the failure to reach this Scriptural standard is the cause of the distressing lack of funds today to enable us to enter the world's open doors. On this point our General Assembly's Committee has well said: 'The desideratum now is the distinct arithmetical setting apart, in the sense of glad, conscientious duty, some definite part of everyone's income, large or small.' We, therefore, most earnestly urge upon every minister and elder the duty of bringing this matter of thoughtful, proportionate giving to the attention of the people of our churches.

"Scriptural proportionate giving asks from everyone, young and old, rich and poor alike, his share in the Lord's work."

A year ago, your Committee asked the patient, judicious consideration of the Church in regard to a scheme upon which we were then just entering, viz.: by a "Presbyterian Union of Proportionate Givers," on a severely simple plan, without expense or organization. for the purpose of encouraging and uniting persons who are beginning, or have already formed the habit of setting aside a definite percentage of income for religious and charitable purposes, and of enlisting their co-operation in the extension of this practice. For the purpose of economy and for comparison of results, we have employed this method tentatively in some Synods, and not in others, distributing a prospectus and simple pledge—our Document 28—to the number of about 40,000, by a plan for reaching individuals in each church supplied, and providing a method of knowing its results, through a return coupon to be sent back to us. In this endeavor we have been well aided by one of the members of our Committee, who has supplemented this general effort by disseminating large numbers of an identical document into many quarters not hitherto reached by our endeavor. The result of this effort has convinced us of its great utility. At the same time it has almost demonstrated the paucity of members in our Communion, who have, as yet, conscientiously dedicated to God and his Kingdom, any definite portion of their incomes.

Judging from the results of this investigation, by the returns made to your Committee during the year, in the field thus far traversed, about one in ten of our ministers, and not more than one in eighty of our church members, have yet adopted any such definite rule of proportionate giving, as would insure to the cause of Christ any distinct and regular share whatever, of the means wherewith the Lord has prospered them. But so encouraging appears to be the local influence exerted, and so prompt and decided have been the favoring resolutions adopted by many Presbyteries and Synods, even

thus early, in regard to this "Proportionate Givers' Union," that we should deem it the policy of your Committee, however constituted in future, to continue throughout the whole church an effort, which, even in partial application, has showed itself so searching and stimulative in the wisest lines of our endeavor. We have tried to discover how the good seed was springing, how these principles were working—so novel, so untried, so unpopular, as yet.

This has been a still-hunt to a great extent, thus far, not noisy, not conspicuous, but provocative of much inquiry and heart-searching among our members, and susceptible of great possibilities of training and reform among them, in the hands of faithful pastors. It has brought forth, in our correspondence, a large amount of new testimony to the individual blessings of proportionate giving, and not one unfavorable verdict from any who have honestly, ex animo, made trial of the principle.

We are happy to perceive that very many churches are adapting the pledges and the various literature issued by your Committee, to publications for their own local use.

Again, we acknowledge gratefully, the inestimable aid given in our effort by the Committeemen of Presbyteries and Synods. These brethren must continue to be largely our channel of communication with the bodies that they represent. We ask that they be retained, if efficient and interested, in order that experience may give facility and power to their influence, and that, when changes must be made, brethren of acknowledged and conspicuous interest in the cause we represent, should, if possible, be appointed. Push and piety and patience are three indispensable requisites for the helpers we desire.

The growing practice is greatly to be commended among our judicatories, of publishing their Beneficence Reports for general circulation, statedly reminding Sessions of their standing in benevolent gifts, inquiring as to their methods and ability, informing them of what the rest are doing. So kindling quickened interest and urging them to improve upon themselves. Such active supervision pays. Presbyteries and Pastors could do wonders, if they would, in starting non-contributors and spurring up the laggards.

We venture to quote from the excellent report of the Synod of Illinois, a few sentences, to illustrate this kindly but crucial self-inspection:

"The contrast in the benevolent contributions of the different Presbyteries is very marked, and ought to give us instruction. Omitting Chicago Presbytery, in which are some very wealthy men, who are large givers, we ask why should Springfield and Bloomington Presbyteries give more than three times as much as Mattoon and Alton? Your Committee cannot fully solve the question, but feel sure that it is mainly due to the fact, that the Committees on Sys-

tematic Beneficence and the leading pastors of the former Presbyteries began earlier and have been more faithful to agitate the subject of Beneficence."

Here is a hint as to the motive springs of power. To adopt practically in Christ's great church, the principle which we have recorded as our creed in beneficence, would give as grand an impulse to the march of Christ's Kingdom, as ever steam gave to the arts, or type and presses to literature.

We look with favor upon the plans now partially in vogue in some Presbyteries and Synods, of wisely apportioning, among the bodies represented, the sums needed for the work in hand. It might be wise for the General Assembly to make such a move itself, apportioning the minimum amount needed for our Church Boards among the Synods, and they among the Presbyteries and so on, until the individual churches are all reached. Synodical Sustentation has been successfully carried forward by just such a method in the State of New Jersey. Still, back of any such assessment would be the question as to best methods of reaching it from the individual. All our plans of systematic, proportionate giving would still press as cogently as ever.

Your Committee has always publications in print, which are suggestive and useful to Pastors and churches in reference to best methods and principles of giving. These documents we are glad to send gratis and postage paid, to any applicant who will faithfully use them.

Complaints still reach us that are deep, if not loud, as to irregular and independent canvassing of our churches, through various appeals for aid. Sometimes these applications are endorsed by officers of our Boards. If successful, injustice is done through partiality and the general work is so far crippled. It would seem to promise gain, if some just and wise method could be devised by the Assembly of lessening these special appeals; while securing every possible increase for the treasury of the particular Board, whose province it should be to deal with such cases.

It is one part of the duty of your Committee, each year, to present, in comparative tabulation, the financial statistics of our Boards.

The picture presented to a careful examination is calculated to impress anew upon the Church, both our splendid ability and our sorry lack. Instead of the constant advance that should be expected from the living, growing body, we find a decrease in those receipts which testify most surely, the Church's vital beneficence. The ebb is slight, but real. Shall it be the beginning of a receding tide? Not if the proper principles and plans of Christian giving shall possess the hearts of our people. But unquestionably where we need

speedy, practical revision of standards, is in our standards of beneficence. The personal confession of faith and consecration to Jesus Christ, of thousands, will need radical reconstruction, before our Lord shall fairly get his own among us, from the offerings of Christian money.

TOTAL RECEIPTS OF THE BOARDS.

|                            | 1889      | 1890      | Increase. | Decrease.                               |

| Publication and S. S. Work | 75,130    | 87,508    | 12,378    | •••••                                   |
| Church Erection            | 125,202   | 126,113   | 911       | • • • • • • • • • • • • • • • • • • • • |
| Ministerial Relief         | 142,417   | 221,855   | 79,438    |                                         |
| Freedmen                   | 134,450   | 176,325   |           |                                         |
| Aid for Colleges           |           | 84,996    | 39,551    |                                         |
| Per. Com. on Temperance    |           | 601       |           | 689                                     |
|                            | 2,379,408 | 2,406,570 | 174,153   | 146,991                                 |

Here appears a net increase of only \$27.162, in receipts of our combined agencies, from all sources. This shows a smaller gain than for many years past. Yet, in all fairness, there should be added to this the sum of \$77,263, which was included in the Foreign Board's receipts of a year ago, as taken temporarily, for current expenses, from reserved funds. This amount has been reinvested now, and disappears from the current statistics of this year. So that the total gain is really \$104.425. This will also render partial explanation of the immense comparative decrease in the year's entire receipts of the Foreign Board. With this correction made, the deficit is large enough—no less than \$61,564.

The large gains for Freedmen and College Aid, are the more encouraging since they obtain also in the gifts of churches and individuals. In Church Erection, payments on Mortgages and Manse Loans, to the amount of \$14.368, are included under the head of total receipts.

In Ministerial Relief, the above statement does not include any part of the Centenary Fund.

All the gain in total receipts is for permanent investment, of which only the interest is used. The large increase of \$79.438, arises entirely from legacies, which furnished \$65,409 in excess of last year. The other Boards have received from legacies as follows: Home Missions, \$187,173. Foreign Missions, \$112,877. Education, \$16,932. Church Erection, \$6,539. Freedmen, \$40,030. Aid for Colleges, \$15,550.

### RECEIPTS FROM CHURCHES AND INDIVIDUALS.

|                            | 1889      | 1890      | Increase. | Decrease. |
|----------------------------|-----------|-----------|-----------|-----------|
| Home Missions              | 667,767   | 609,437   |           | 58,330    |
| Foreign Missions           | 707,233   | 681,188   |           | 26,045    |
| Education                  | 64,231    | 60,290    |           | 3,941     |
| Publication and S. S. Work | 65,985    | 71,532    | 5,547     |           |
| Church Erection            | 80,689    | 82,139    | 1,450     |           |
| Ministerial Relief         | 108,586   | 105,369   |           | 3,217     |
| Freedmen                   | 93,486    | 121,302   | 27,816    |           |
| Aid for Colleges           | 45,395    | 84,996    | 39,601    |           |
| Per. Com. on Temperance    |           | 601       |           | 689       |
|                            | 1,834,662 | 1,816,854 | 74,414    | 92,222    |

Here is a most suggestive net decrease of \$17,808. In Home Missions, while the women and children have increased in systematic giving, as they always do, the men of the churches have fallen off this year, to the extent of \$19,814, in their support of this important cause. The embarrassing fluctuations caused by our more prevalent methods of Church Contribution, are illustrated by the fact that while, on February 1st, the receipts of the Home Mission Board were \$97,000 in advance of the same date in 1889, in February, 1890, the receipts fell off \$10,000, and in March, \$85,000, as compared with the same months last year. The Board comes to the Assembly with a debt of \$80,000.

In this table, Foreign Missions have received \$26,045 less than last year—and report a debt of \$60,275.

Freedmen also have a debt of \$11,000, with balance of \$4,809, and Education reports a debt of \$8,700, with small balance. The debts of the Boards amount, altogether, to \$159,975. Balances, without debt, are reported by Relief, \$15,263; College Aid, \$11,706, and Temperance, \$409. Women's Societies have nobly swelled the amount credited to Churches by their increased gifts of \$286,627 for Home Missions—not including the value of Boxes provided—\$280,285 for Foreign Missions, and \$26,117 for Freedmen. Sabbath Schools have aided to the extent of \$34,319 for the Home Board, \$36,062 for the Foreign, \$2,039 for Relief, and \$31,264 for Publication and Sunday School work.

### NUMBER OF CHURCHES CONTRIBUTING.

|                     | 1889  | 1890  | Increase. | Decrease. | Non<br>Contrib't'g |  |
|---------------------|-------|-------|-----------|-----------|--------------------|--|
| Home Missions       | 4,651 | 5,059 | 408       |           | 1,668              |  |
| Foreign Missions    | 3,868 | 3,880 | 12        |           | 2,847              |  |
| Education           | 2,900 | 3,236 | 336       |           | 3,491              |  |
| Pub. and S. S. Work | 3,540 | 3,565 | 25        |           | 3,162              |  |
| Church Erection     | 3,173 | 3,236 | 63        |           | 3,491              |  |
| Ministerial Relief  | 2,963 | 3,032 | 69        |           | 3,695              |  |
| Freedmen            | 2,892 | 2,954 | 62        |           | 3,773              |  |
| Aid for Colleges    | 1,902 | 2,030 | 128       |           | 4,697              |  |
|                     |       |       | 1,103     |           |                    |  |

A net increase of 1103 contributions.

In Home Missions the advance in Contributing Churches covers the last two years, from 1888, since the Board gave us no report under this table last year.

We again take pleasure in acknowledging another gift of \$100 for your Committee, from Alexander Guy, Esq., of Oxford, Ohio, reducing to that extent our draft upon the Assembly.

Your Committee recommends the following action to the Assembly:

- 1. That all Presbyteries and Synods be again instructed to maintain efficient Committees on Systematic Beneficence, who shall report to and co-operate with the Assembly's Special Committee.
- 2. That Presbyteries be advised to call their churches, annually, to account, at some regular meeting, in reference to their compliance with the recommendations of the Assembly.
- 3. That the useful practice of some Presbyteries through their Beneficence Committees be approved, in calling conventions for prayer and discussion in reference to Christian Giving, and in publishing comparative tables of their Churches' gifts for stimulus and information.
- 4. That the new chapter VI, of the Directory for Worship, be warmly commended to all our Churches, and advice given to them as before, to discourage combination in the same offering of self-support and gifts for the Boards.
- 5. That every Minister be challenged to secure the instruction of his congregation in the grace and duty of liberality for Christ's sake, and in scriptural principles of giving; also to keep them informed as to the work of our various Boards, with the needs of each particular cause; especially to train the children and youth of his charge in true principles and habits of Christian giving.
- 6. That every member be earnestly advised in his Christian stewardship, to adopt the practice of proportionate giving, as God hath prospered him.
- 7. That this Assembly again establish between our several Boards an equitable ratio of distribution for the guidance of Churches in apportioning undesignated gifts.

## Respectfully submitted

In behalf of the Committee.

CHARLES S. POMEROY, Chairman.

DAN. P. EELLS, Secretary.

### THE NINTH ANNUAL REPORT

OF THE

## GENERAL ASSEMBLY'S PERMANENT COMMITTEE ON TEMPERANCE,

FOR THE YEAR ENDING MAY 1ST, 1890.

Presented to the General Assembly at New York.

It is with unexpected joy and satisfaction that the General Assembly's Permanent Committee on Temperance reports the work done and the general results attained during the past year. It is a well known fact that the openly aggressive movements on behalf of temperance during the past year have not been very encouraging and we have feared that the defeat of the Prohibition Amendments in Michigan, Pennsylvania and some other states might have had a depressing, paralyzing and perhaps a reactionary influence in regard to the cause throughout the country, but if the reports which have come to us have any significance this has not been the case. Indeed there seems to have been a steady, healthy and most hopeful advance made along the whole line, indicating a growing conviction on the part of our very best citizens that the iniquitous liquor traffic must by some means or other be brought to an end.

In order to test the feeling of the church in regard to this matter, your committee sent out a circular containing three points of inquiry. The first was in regard to methods of work and the efficiency with which they were prosecuted. The second was in regard to any noticeable change in the christian sentiment on the subject of temperance and the third was in relation to the acceptibility of the past deliverances of the General Assembly.

We are happy to state that the answers to these inquiries were far more numerous, full and satisfactory than any similar reports have ever been, and, in addition, there was a snap, determination and aggressive spirit manifested in these reports which was most hopeful and far in advance of the average in times past.

In regard to the first inquiry, while no new methods of work have been suggested or adopted, nearly all of the reports speak of the unanimity and earnestness with which the ministers are advocating the cause of temperance in their pulpits. In some Presbyteries they are required to preach on the subject at least once a year, and in others every quarter. Sabbath schools in increasing numbers are devoting the last Sabbath of each quarter to the consideration of this subject. In some of them Bands of Hope are organized, and in others temperance pledges are taken by the children when they reach a certain age. In nearly all the reports the good work of the Woman's Christian Temperance Union is spoken of and commended.

In relation to the second question the reports assure us that there is no retrograde movement among Christian people, but in nearly every instance we are encouraged to believe that there is a steady undertone of feeling inimical to the liquor traffic which is gradually asserting itself, and which cannot but be felt and sooner or later be productive of very great good.

Among the causes operating to produce this result the following have been referred to, viz.: The high position taken by the Assembly in its various deliverances, the effect of which can scarcely be overestimated, the inherent wrong in the traffic, the utter rottenness of the whole business as revealed in our courts of justice, the iniquitous means by which it is promoted and the utter lawlessness of those engaged in it. It is becoming more and more evident that the reason why Prohibition does not prohibit is that the thing proposed to be prohibited is by instinct as well as practice not only a law-breaking but a law-defying business. Men are not prevented from engaging in it because they will not be. Of course, in an issue of this kind there is left to the Christian conscience no room for choice. So that it matters not what temporary reverses may overtake the cause itself; the individual Christian no less than the Church itself is bound to stand by the right and testify against that which tends only to evil.

It is most gratifying to your committee to learn how unanimously and heartily the past deliverances of the Assembly are endorsed by the several Presbyteries. The only exception noted is to the so-called explanatory clause added to the otherwise most admirable deliverance of the last year.

The objection to this is not so much that action is wanted in favor of any distinct line of political action, but because, under the circumstances that explanatory clause seemed to commit the Church against any political action which is certainly not the voice of the Church. With this single exception, the past deliverances are referred to not only with approbation, but with evident feelings of pride and gratification. Not a few of the reports refer to the admirable results flowing from the distribution of our tract containing a summary of these deliverances among the people.

It is also interesting to note that not one of these reports refers to High License with approval as a remedy for the evils connected with the liquor business, but in every one in which it is referred to, it is with manifest disapproval, for the reasons that it is wrong in principle, compromises the State, does not materially lessen the amount of liquor sold, and that high-priced intoxicants are just as prolific in the production of drunkenness and its consequent pauperism, crime, taxation, lamentation, woe and ruin to the bodies and souls of men, so eloquently referred to one year ago, as that sold under lower license. The testimony of the Presbyteries in the Synod of Wisconsin and Nebraska are especially emphatic in regard to this matter. One of these reports, after declaring that the theory of High License is a delusion and a snare, closes with these emphatic words: "We want no compromise with evil. We want no blood money to pay our taxes and educate our children. We want no sympathy with a power that frameth mischief by a law."

Another interesting fact brought to light in these reports is that, owing to the increasing light and recent discoveries in regard to the utter rottenness and diabolical character of the whole liquor business, it is rapidly being put under ban, and only tolerated as an evil to be gotten rid of as soon as possible. It is no longer considered respectable for men in good society to drink at an open bar. The treating habit, once so common among young men, is rapidly disappearing, the window curtains are being drawn tighter and the door screens made both higher and broader. The wine cup, too, is rapidly being banished from all good society, and what fills your committee with special joy is to learn from the report sent us by the Presbytery of Washington City that even there "the social customs are rapidly changing for the better, liquor being banished from the tables of many at public dinners and other receptions." The truth is that the drink-

ing habit is rapidly coming to be regarded as an un-American institution, and is largely being handed over to foreigners who flock to this country, bringing with them their drinking and other evil habits, and by their great numbers and skill manage to terrorize and hold in abeyance our politicians so as to maintain the protection of law for their nefarious traffic. If it were not for this significant fact, unless all signs fail us, the temperance jubilee could not long be postponed and the nation redeemed from the curse of strong drink.

### THE WORK OF THE COMMITTEE.

In regard to the work of the committee during the past year we have to report that very soon after the sitting of the last Assembly we determined to take a new departure and announced through nearly all of our religious newspapers that we would, to the extent of our ability, furnish gratuitously any of our publications that might be called for to those who would undertake to wisely distribute them, the applicants simply paying for their transportation. Our reason for making this announcement was that we found by experience that the communities most needing information were the ones least disposed to seek it and especially to purchase it. Facts have fully demonstrated the wisdom of the course pursued. We have met to a very liberal extent every call made upon us. A very large amount of our literature has been sent into Nebraska and other States where it was especially needed, and while the general demand has not been as large as we anticipated, it has been constant and from almost all parts of the country.

We have during the past year, besides distributing a large amount of matter on hand at the close of the preceding year, issued a large edition of a new tract written by the chairman, entitled, "The License System Wrong in Principle." We have also re-published the deliverances of the General Assembly, bringing them up to the present time. Also, "The Temperance Catechism." Both of these latter publications are greatly sought after and appreciated.

We had made arrangements for the publication of a tract to be prepared by one of our ablest ministers on the "Moral and Legal Right of Prohibition," and had reserved funds for that purpose, but as yet the manuscript has not come into our hands, but this tract will be published as soon as it is prepared.

As will be seen by referring to our Treasurer's Report, the contributions have not been large, but they have covered a large district of country and have been sufficient to meet our necessary expenses, and we believe that should larger demands be made upon us, our treasury will not be found wanting. We believe, also, that there is a hearty readiness on the part of the Church to respond most fully to whatever the General Assembly will undertake in this direction.

The term of service of the following members of the Committee will expire with this Assembly, viz.: Rev. W. O. Campbell, D. D., Rev. J. J. Beacom, D. D., O. L. Miller, M. D., and R. S. Davis. We recommend the re-election of Dr. Beacom and Elder O. L. Miller, and in the place of Dr. Campbell, who declines a re-election, Rev. Joseph B. Turner, and in place of Mr. Davis, W. N. Zeigler.

Inasmuch as Rev. W. J. Holland, of the class of 1891, declines to serve longer, we recommend that Rev. Richard S. Holmes be elected to take his place.

All of which is respectfully submitted.

I. N. HAYS, Chairman.

JOHN F. HILL,

Cor. Secretary.

## JAMES ALLISON, TREASURER,

IN ACCOUNT WITH

# The General Assembly's Permanent Committee on Temperance.

JAMES ALLISON, TREASURER,

PITTSBURGH, May 1st, 1890.

### A SUMMARY

Of the Action of The Assembly on the Foregoing Report,

The Standing Committee on Temperance presented its report, which was accepted, and after an address by Dr. I. N. Hays, Chairman of the Committee, was amended and adopted, and is as follows:

"In studying the work of the Assembly's Permanent Committee, it gratifies us to recognize that this useful agency of our Church, still continues actively at work on the lines of its appointed effort, with a hopeful and enlarging measure of encouragement and success. The gratuitous and self-denying labors of its officers and members during the past year are worthy of all praise.

"The year has been a period of incessant stir and varying conflict around the great question of temperance, and the control or suppression of the liquor traffic. More and more deeply the conviction has been burning itself into the public mind, that however checked by legis lative restrictions, or burdened by heavier taxation, the peril of the public sale of intoxicants is too great for any valid excuse of its existence. In regard to such an evil that affects the whole body of our people, the issue is being steadily pressed by conscience and self-preservation, against the greed which is now absolutely the only cause for retention of the dram shop.

"Indeed, the saloon has well-nigh passed its period of defense. Nobody stands up for it to-day, except as an alleged necessary evil, supposed to be so strong as to be incapable of suppression, and which must continue, only to be curbed and prevented from venting quite its full curse. It must be the business of the better class of our citizens, and of Christian society at large, to prove that theory false.

"Eventually the open sale of liquor must go. Forces are now at work that, however temporarily resisted, will yet crush the life out of it. Meanwhile, let us sow good seed among the children. Emphasize the sinfulness of inebriety, and ply every man his neighbor with temperance and Gospel influences. While permitting no final satisfaction with half-way measures, let us help enforce existing laws that tend to fetter the liquor traffic, until

with constant agitation and unremitted effort something more and better can be done. Even the defeat of political prohibition in some quarters lately need not be explained as the triumph of the saloons—only the temporary non-acceptance of certain methods devised to oppose them.

"Let it be remembered that our Presbyterian Church itself is one great temperance society, that practices the principles it has avowed, and constantly exerts a power that is beyond tabulation towards the reform of inebriates and the closure of their sources of temptation."

#### RESOLUTIONS.

We recommend the following, viz:

- I. We stand by the deliverances hitherto issued by our Church upon the temperance question, a summary of which has proved our Committee's most popular tract, and we enjoin our ministers and people to abate nothing in their zeal and effort in or out of the churches, to check the drinking habits of society, and by effort, voice and vote, to oppose the traffic in intoxicants as a beverage, believing with intensified conviction that it is a direct inexcusable curse to our country and our age.
- 2. While, as a Church, we neither advocate nor antagonize any political party—we earnestly commend to our ministers and people, as Christian citizens, such vigorous persevering efforts, as may seem wisest to them, towards the enactment in every State and Territory, of statutes which shall hopefully secure entire prohibition, of a traffic largely responsible for the bulk of the drunkenness, crime, pauperism and social miseries which afflict our land.
- 3. We honor all executive public officers who have had the fidelity and firmness to execute the laws in accord with their oath of office, against outbreaks of characteristic lawlessness on the part of the liquor power.
- 4. We recognize with congratulation, the influence already exerted by our Presbyterian women—forming the majority of our membership—in the temperance cause; and the organizations forming among them in Pennsylvania and elsewhere, on the lines of our Assemblies' deliverances, to further, in their own way, the ends aimed at by our Permanent Committee.
- 5. Congratulating the Permanent Committee on the encouragement that has followed its operations for the year, we approve of its new departure in distributing its literature gratuitously. In many cases the offer of gratuitous transportation also might be wise. And we commend the Committee to the Church for whatever increase of contribution to its treasury may be needful, glad that no deficit has arisen, and that a good balance for beginning the work of a new year is still in its hands.
- 6. That we, as an Assembly, assert our conviction that the love of God for the sinner, as applied to the conscience by the convicting, converting and sanctifying power of God's spirit and truth, is the inebriates' only hope of salvation and assurance of all true reform.
- 7. We recommend that the Committee on Temperance be continued; that Rev. J. J. Beacom, D. D., and Elder O. L. Miller be relected; that Rev. Joseph B. Turner be chosen in place of Rev. W. O. Campbell, D. D., who declines to serve, and in place of Mr. R. S. Davis, Mr. W. N. Ziegler, and since W. J. Holland, of the class of 1891, declines serving longer, we recommend that Rev. Richard S. Holmes be elected to take his place.

All of which is respectfully submitted in behalf of the Standing Committee.

### Date Due

# ANNUAL CONTRIBUTIONS.

For Churches that have not yet adopted the scheme of weekly offerings set forth in the Directory for Worship, Chap. VI, it is recommended that the first Lord's Days of the following months be set apart for contributions to the Boards:
